

# Security organization worksheet

## Part 1: Describe your security interests

- Digital Forensics & Incident Response
- IT Governance & Risk Management
- Volunteer IT Security Consultancy in MSME Sector

## Part 2: Identify three organizations and include their mission or objectives

- **Palo Alto Networks:** Secure the digital world with cutting-edge cybersecurity platforms.
- **PwC:** Empower organizations to manage IT risk and build trust in the digital age.
- **RSA Security:** Inspire confidence by providing advanced security solutions for all.

## Part 3: Write out which organization aligns with your interests and why

- **Palo Alto Networks:** When cutting-edge technology and conquering network security challenges are my top priorities, Palo Alto Networks is a perfect fit. Their focus on innovative security platforms for cloud, network, and mobile environments directly aligns with my passion for staying ahead of the curve.
- **PwC:** If managing IT risk and crafting a robust cybersecurity strategy take center stage, PwC emerges as the ideal choice. Their comprehensive consulting services empower organizations to build strong IT governance and navigate the complexities of cybersecurity.
- **RSA Security:** When a broad spectrum of security solutions and fostering collaboration within the cybersecurity community pique my interest, RSA Security stands out. Their diverse portfolio coupled with their emphasis on knowledge sharing creates a dynamic environment perfect for those who thrive in collaborative settings.
- **Best choice for my professional interests:** PwC's strategic cybersecurity focus aligns best for now, but Palo Alto's tech and RSA's collaboration are intriguing future paths.
